

April/May/June Lesson Plan

Issue available online: June 4, 2018

Lesson/Plexus Issue/Related Articles

Industry theme: Protecting Patients and Yourself (Security & Protection)

CM theme: Metabolic & Bariatric Surgery

Articles include:

- Is your remote office compliant and secure? By Mark Magruder and Daysha Weller
- Threats and Security Measures on Wireless Local Area Networks by I Chibueze, et al.
- My 25-year journey: Persistence or Obstinace? By Julia Dyviniak
- Bringing Homeostasis Back into Weight Control by Lauren Outland
- The Rationale for Bariatric Surgery by Rana Reynolds

Healthcare Documentation Competencies:

M3 Students will categorize and interpret abbreviations, brief forms, acronyms, eponyms, and foreign words and phrases commonly used in clinical practice.

M4 Students will use terms and discuss concepts of gross and microscopic human anatomical structure, physiologic functioning, and homeostasis.

M5 Students will categorize surgical procedures and other interventional diagnostic and treatment modalities by specialty, indications or related diagnoses, technique, and typical findings.

M11 Students will identify and define methods of diagnosis and treatment of common diseases and conditions.

M13 Students will identify and analyze current trends and advancements in medicine.

H3 Students will demonstrate an understanding of standards and regulations related to healthcare documentation.

H4 Students will identify and apply medicolegal concepts and the role of the healthcare documentation specialist in risk management.

H5 Students will apply the AHDI Code of Ethics.

Objectives

- Identify appropriate examples of PHI under the HIPAA privacy rule
- Identify the individuals and/or organizations that are defined as accountable parties or business associates under the HIPAA rule
- Identify the proper ways in which PHI may be released.
- Describe signs, symptoms and disease conditions affecting the bariatric patient.
- Understand procedures and therapies that address metabolic and bariatric health issues.
- Understand medical terminology associated with the GI system.

Key Words – Clinical

Adipose	Hasson technique
Anastomosis	ileum
Bariatric	jejunum
Biliopancreatic	laparoscopic
body mass index	malabsorption

duodenum	metabolic syndrome
gastrectomy	obesity
gastric banding	pneumoperitoneum
gastric pouch	Roux-en-Y
gastroenterology	trocar
gastroplasty	Veress needle
grasper	weight loss

Key Words – Security and Protection

Instructional Material and Assignment Suggestions

- Promote joining AHDl as a Student member
- View online access to *Plexus* magazine
- Based on the feature articles in *Plexus*:
 - Create a quiz to test students' knowledge and ability to retain information,
 - Create worksheets, or
 - Have students write article summaries.

Suggested Student Assignments

- Read Game Changers 411 article in *Plexus*
- Read feature articles in *Plexus* magazine
 - Write summaries based on article,
 - Take quiz based on article, or
 - Complete worksheet based on article.
- Complete related Student Activity in *Plexus* magazine
 - *The Importance of Networking* by Robin Minter, CHDS, AHDl-F
- Submit relevant definitions for key words
- Additional activity – See OWLS Academy online at www.ahdionline.org/owlacademy
