

## **RHDS Resources for Success**

**Credentialing Tip—RHDS Resources for Success**  
**Audrey Kirchner, CHDS, AHDI-F**

Areas of study that will help you be most successful when you sit for the RHDS credential include:

- *Book of Style* sections covering medical report formatting, turn-around times and grammar and punctuation
- Healthcare privacy and security standards
- Clinical medicine with emphasis on anatomy and physiology, medical conditions and diseases, diagnostic procedures to include imaging, labs, and classifications
- Surgical and medical treatments for medical conditions
- Health information technology to include computers
- Abbreviations and definitions that apply to healthcare documentation technology
- Abbreviations and definitions as they relate to transcription

Be sure and check AHDI's Credentialing Candidate Guide for the specialties that test questions can cover and read over the RHDS Blue Print for more information.
